

At **ETHAM COLLEGE**, we understand that some families require boarding facilities for their children. While the school does not operate its own boarding service, we are pleased to share that we have partnered with **independent, trusted providers** who offer accommodation options nearby.

#### **Important Information**

- Boarding is **independently operated** by the providers listed below.
- All enquiries, bookings, and payments are handled **directly with the providers**.
- The school's role is only to connect families with these partners and does not include the management of facilities or services.
